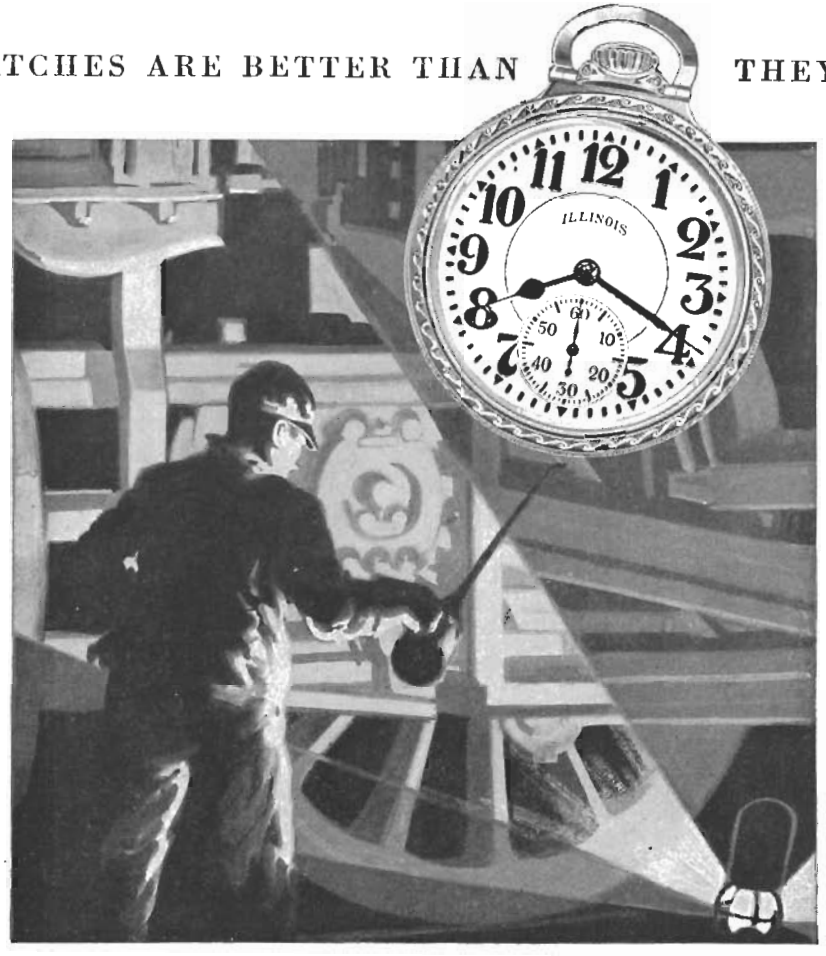
ILLINOIS WATCHES ARE BETTER THAN THEY HAVE T



Only a BUNN SPECIAL

OFFERS *ALL* THESE ADVANTAGE

There's a thrill of leadership for the man who carries a famous Six-Sixty Bunn Special. For it brings him, at no increase in price, outstanding improvements unsurpassed by watches of any price.

It is made to run more than 60 hours on one winding. Talk about safety! If you forget to wind it one day, it will keep the same accurate time for at least another day.

It is adjusted to six positions. This means that every chance of error has been guarded against. Position adjustments are the proving ground of accuracy and the extra adjustment makes the Bunn Special just that much finer a watch.

It is the perfected watch. For before the long even-pulling mainspring could ever be used, it was necessary to perfect the Illinois Superior Motor Barrel and reduce friction to the very minimum.

No wonder the Bunn Special maintains such sustained, dependable accuracy. Talk to your jeweler. See how easy it is to own a Bunn Special and lead in watch equipment.
