

Excelsior Springs is only 30 miles from Kansas City.

The largest institution in the world devoted exclusively to the treatment of rectal and colonic diseases.

Over 20,000 Patients from every State, Canada and many Foreign Countries

The largest institution in the world devoted exclusively to the treatment of rectal and colonic diseases.

# A Treacherous Affliction Healed Without Surgery

**T**HE old theory that surgery was the only method by which hemorrhoids (piles) could be successfully treated has been wholly disproved. If taken in time this treacherous affliction, which slowly but surely undermines the health of its victims, can be healed without recourse to surgical aid.

As pioneers in the non-surgical treatment of hemorrhoids (piles), Dr. McCleary and his associates have established a wonderful reputation for their skill in treating all curable colon and rectal conditions. Their services have been sought by men and women from every state, from Canada, Cuba, Mexico and other foreign countries. Their reference list now contains the names of over 20,000 persons, including business men and women, farmers, bankers, teachers, ministers, in fact those from almost every vocation in life.

## Illustrated Book FREE!

We have just prepared a new book describing the McCleary treatment which is fully illustrated, printed in colors and copyrighted. It explains in a very interesting and instructive manner, the various kinds of hemorrhoids, piles and other rectal troubles and the mild McCleary treatment that has proved so successful. A copy of this book will be sent postpaid, free to anyone. Use the coupon or send name and address in a letter or postal.

Thousands suffer from various ailments without knowing that rectal trouble in some form or other is directly responsible for it. Many men and women who have thus spent years not knowing what was wrong with them have found new health when these troubles were corrected. You can never hope to be well until the cause of your trouble has been removed.

The McCleary treatment finds favor with men and women, young and old, for it entirely does away with harsh surgical methods of treating hemorrhoids or piles. All the discomfort and dangers of ether and chloroform have been eliminated.

Use the coupon below, or if you wish you may write us in strict confidence, describing your case as accurately as possible, and your letter will be answered in detail. In either event, our book and large reference list will be sent free postpaid in plain wrapper.

### These Symptoms Are Warnings

Nature sets up danger signals to warn us. If these warnings are heeded in time much suffering and often grave danger can be avoided. If you have been troubled with headaches, nervousness, faulty nutrition, stomach and liver troubles, constipation, etc., and have been unable to overcome them, you should write at once for our Free Book and learn if your symptoms are not due to some rectal or colonic trouble.

So confident are we of results that we say to one and all alike, "If our treatment for your rectal trouble should not prove successful, you need not pay us one cent." Send for a copy of our Free Book today and learn the facts.

**TELEGRAPH NOTES FROM EASTERN DIVISION**

HELEN FELLOWS, Reporter

We regret very much to have to report the death of C. A. Leonard, Agent Sligo, after an illness of several months. Also, the death of Mrs. A. E. Gustafson, wife of first trick MS Springfield, and Mrs. R. M. Dickerson, wife of third trick Harrisonville. We all join in extending sympathy to the members of the bereaved families.

C. L. Perkins was successful bidder on cashier-operator Clinton. Second trick Crocker was bid in by H. D. Petty, and the agency Sligo by R. B. Lemons.

H. DeBerry, extra dispatcher, has fully recovered from his illness and has been back to work for some time. He relieved J. W. Long, third trick west end, who, with Gene Autrey from Sapulpa, made another trip to New York for the purpose of making more phonograph records.

C. V. Keller, third Lebanon, also back to work after his bout with pneumonia.

R. E. Nichols, third Globe, has purchased a new Ford. Think he is going to send "Uncle Abner's car" to Ford for his museum of antiques.

Fishing is in season again. A. H. Owens, third Strafford, is catching nothing but two-pounders, and Nichols at Globe doesn't measure the ones he catches, just "stretches" 'em.

Notice to Horton Smith—Beware.—Al Chidester, third at Marshfield, has taken up golf. Made four holes in 51. Game called account darkness.

Later—Never mind, Horton, Al lost his ball and has had to give up the game.

Al Chidester now notifies Joe Lick that he has also taken up the art of shooting.

## Pounds Pressure

**T**HE safety cock of a Hudson Type 5200 is set to blow at 225. Her boiler test is 25% higher.

Would you put 3000 pounds pressure in that boiler? If you did, you couldn't use that locomotive again.

A Grip Unit Nut, of a certain size, withstands vibration, intermittent torque—every service strain to which it's subjected—with 500 inch pounds lock.

Would you put 3000 inch pounds of lock into that nut? You *could*, easily; but it would be hard to apply, wouldn't lock a bit better—and it would wreck the bolt, and the nut too, so that they couldn't be used again.

Twenty-three years of research, invention, experience, have developed, in Grip Nuts—not just a *lock*, but *just enough* lock. They apply; they lock; they hold; they don't junk the bolts, and the bolts don't junk them.
