GRIP NUTS ABOVE THE SILLS

FAST freights speeding through wind and rain. A few carlin or purlin bolts missing means damaged lading, damage claims, "bad order" cars.

There is a perfect locking and holding device for bolted parts above the sills—*Grip Holding Nut No. 2.*

When roof purlin and carlin bolts are Grip Nut protected—it *doesn't rain*, so far as the lading in *that* car is concerned.

The improved Grip Holding Nuts are applied easily and quickly; they do not turn the bolts; they lock automatically; they hold bolts firmly and permanently in place; they hold until you *wrench* them off.

GRIP NUT COMPANY

Coming!

THE GREATEST
IMPROVEMENT
IN WATCHMAKING
IN 300 YEARS

The New ILLINOIS
BUNN SPECIAL
LINE OF RAILROAD WATCHES

You know what the Illinois 60-hour mainspring and Superior Motor Barrel did to make the present BUNN SPECIAL the most accurate and dependable time-piece for railroad service.

NOW—Illinois, after years of research, offers Railroad Men another important advancement in watch engineering. It will mean even more consistent accuracy, greater dependability and longer life by practically eliminating the two greatest enemies of a timepiece:—

RUST... MAGNETISM

American railroads are the finest in the world. They must have the finest timing equipment in the world.

You will find it in the new ILLINOIS BUNN SPECIAL.

Railroad men will marvel at the new perfection attained. It marks the beginning of a new era in railroad time service.

Watch next month's issue of this magazine for announcement of this great new Railroad Watch. You will be given full details. Write us to reserve booklet giving complete information.

The ILLINOIS
WATCH
