To Fill Railroad Lamps Quickly

This Bowser Table Tank is especially constructed. Pump is adjustable—exactly fills different sized lamps at a single stroke.

Table furnishes space for lamps, and when oil is spilled accidentally, it drains into a special receptacle.

Knowledge Will Put YOU in the Spot Light

The fellow that does only what he has to, and spends his spare time in theaters or pool rooms or on the street corner—that fellow need not expect to go very high.

How did your superintendent, or general manager, or foreman, or department chief land the position he holds? By showing knowledge of his work; by proving that he had ability; by getting ready when he was in the same job you now hold.

Your spare time, if you would realize it, could be made more profitable than the time sold to your employer.

Mark and mail the coupon to find out all about the I. C. S. plan to put you into the spot light. Doing so will cost you nothing, and will bring to you a full explanation of just what kind of Course you will get, what you will learn, and what has been done by other students of the same Course.

Three hundred I. C. S. students a month write to tell of progress.

Don't wait.

Mail the coupon NOW.

Please explain, without further obligation on my part, how I can qualify for the position, trade, or profession before which I have marked X.
