

SCHROEDER ELECTRIC HEADLIGHTS

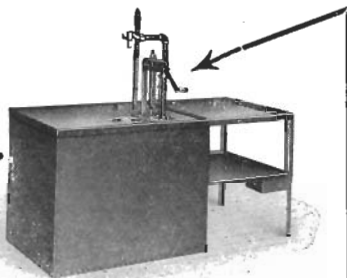

Saving of 60 percent of fuel as compared with other Headlights. Extra heavy insulation on the windings. No burnouts or grounded coils.

SCHROEDER HEADLIGHT CO.

OIL AND ELECTRIC

EVANSVILLE, IND., U. S. A.

No cleaning of Commutator. No cleaning or filing of the Lamp electrode. Strong and steady light at all times. No wear of valve, nozzle, wheel or shaft. **SCHROEDER HEADLIGHT COMPANY, Evansville, Ind., U. S. A.**

To Fill Railroad Lamps Quickly

This Bowser Table Tank is especially constructed. Pump is adjustable—exactly fills different sized lamps at a single stroke.

Table furnishes space for lamps, and when oil is spilled accidentally, it drains into a special receptacle.

Write for free booklet No. 103.

Both Walthams — alike to the second

When Conductor and Engineer compare their Walthams before starting on a run — they find them alike to the second. And their Walthams will agree at the end of the trip. It is this matchless reliability and accuracy that has made the Waltham the favored watch on the great R. R. systems. We especially recommend to R. R. Men the

WALTHAM

“Vanguard”

The Vanguard is the highest type of a R. R. watch. It is carefully adjusted to temperature, isochronism and five positions. The strength of the construction will preserve this accuracy of adjustment under hardest service.

Made in 23, 21 and 19 jewel grades and in 18 and 16 sizes. Balance pivots run on diamond end stones. This is just one of the refinements that makes the Vanguard always pass inspection.

“It’s Time You Owned a Waltham”

WALTHAM WATCH COMPANY

WALTHAM, MASS.

Will YOU Be Ready When Your Chance Comes?

Will YOU be chosen as the right man when the big opportunity comes? Are YOU better prepared to rise from the ranks than the men beside you?

Could you fill satisfactorily a position requiring knowledge of "hows" and "whys"? Could you direct the work of others so as to get the best results? Would any employer be safe to trust your planning and figuring and doing?

Through the study of I. C. S. Courses, shop hands have become draftsmen, foremen, and superintendents; carpenters and masons have made themselves contractors, architects, or structural engineers; young men have prepared for Civil Service positions, or studied successfully surveying and mapping, illustrating and designing, automobile running, sanitary plumbing, textile work, navigation, or some other occupation covered by one of the 214 Courses of the I. C. S.

It will cost you nothing but postage to learn all about the salary-raising plan of the I. C. S.
