DIY It, Fix It, Brand It at the Library Maker Space

DIYers, Doers and Master Fix-its have used the Maker Space to make signs, letter T-shirts, preserve photos, make toy replacement parts, and more. See what you can do!

- Use the laser engraver to make a sign or designs on wood, acrylic, paper and cardboard. Make your own puzzles.
- Program the vinyl cutter to make iron-on transfers for T-shirts, plaques or flags.
- Use the 3D printer to make replacement parts for toys, shelving, cabinets and board game pieces — or just art.
- Convert and save your old negatives, slides, VHS and DVD movies to a USB drive or SD card using the video transfer equipment.
- Repair electronic components, make or fix jewelry at the soldering station.

Helen Davis used the Maker Space laser cutter to create a decorative 3D relief. Call 417-837-5011 for an appointment.

Instructor-Led Classes

Improve your career and personal skills with FREE hands-on classes. An Edge instructor will guide you through practice exercises and help you build new computer and internet skills.

One-on-One Help

Reserve an hour with an Edge staff member for answers to your technology questions. We can help with specific questions about using your tablet or smartphone, creating and using an email account, getting started with Microsoft Office products and more. **Postponed until further notice due to social distancing for the safety of staff and patrons.**

Self-Guided Tutorials

Virtual Learning Center (VLC).

Follow along step-by-step as a video instructor guides you through new technology and software skills.

Interactive sessions allow you to take part in practice exercises and quizzes to reinforce your skills as you go. Build keyboarding skills with guided lessons and practice games. Repeat lessons as many times as you like, so you can learn at your own pace.

Reach Your Goals with Udemy.

YOU-d'mee. Access this online video tutorial platform for adults for 6,000-plus courses in business, technology, design and more at thelibrary.org/udemy.
