"I guess the girls aren't coming, dad?" was the reply, "So, we'll just make it a birthday party for you."

It was a real surprise that dinner party of old friends in honor of Mr. Taylor. Their names: David, John, and Ann. They were all at the Taylor residence for a wonderful evening. After dinner, they sat around the fireplace and had a wonderful time. The party lasted until late into the night. It was a truly memorable event for all who attended.

"Be patient, my dear," Mrs. Taylor said, "and we'll have a wonderful time." And they did, enjoying each other's company and the warmth of the fire.

The event was part of the Taylor family's tradition of hosting these gatherings every year. The Taylor family is known for their hospitality and love of good food and company.

Mr. Taylor had just received a promotion at his job, and he wanted to celebrate with his close friends. The Taylor family is well-respected in the community and is known for their generosity and kindness.

The party was a huge success, and everyone went home feeling happy and content. The Taylor family had once again proven that they were the epitome of good neighbors and good hosts.

The Taylor family is one that is always willing to lend a helping hand, and they are loved and admired by all who know them. The Taylor family is a shining example of what it means to be a good neighbor and a good host.

One of the most enthusiastic and helpful returns on the railroad today is coming from the district office at Fort Scott, Kansas. To date he has been in over 200 applications which he has been able to secure in the Ft. Scott district. Why can't others do the same? If you wish to assist the officers and directors of the association get out and see these men to assure them of their new homes.

On the evening of March 11, Mrs. Harold Randall, formerly Mary Dunlap of the 0. S. district, was admitted to the hospital with appendicitis. By the grace of God, she is doing well and with the assurance of a quick recovery.

Mrs. Harold Randall, formerly Mary Dunlap of the 0. S. district, visited the office the latter part of the 1928 season on account of a slight attack of influenza. They visited in Jacksonville and Pensacola, Florida, also in New Orleans. They made a trip to Turrell, to visit the men of Woodall's gang; and family; are enjoying a few days' visit with relatives at Ash Grove, Missouri; and are spending a 60 day leave of absence. Alice Cruise was promoted to the position of lunchroom girl.

ARKANSAS

DONAHUE'S GANG—TYRONZA, ARKANSAS

J. E. NURSBAUM, Reporter

Foreman W. F. Donahue was called home recently on account of the death of his nephew. Leslie George Grifin was granted a leave of absence account of sickness. George returned to his home in Pierce City, Missouri. Ye reporter was forced to go home on account of a slight attack of sickness. George returned to his home in Pierce City, Missouri.

The telephone company is talking about a tax on the telephone in the near future. We have nine miles to go on the Pacific track today between St. Paul and Brainerd, Minnesota."

SAFETY FIRST

Only about 30 per cent of accidents can be prevented by mechanical safeguarding; the other 70 per cent must come through Human Engineering—safety work. That is a slogan should not be thrown out, but rather kept in mind. That is what the safety movement has proven to be one of the great agencies toward a realization of the Brotherhood of Man.

There is nothing more useless than an accident. The victim, his family, his employer and his community are the losers.

Safety work is found to be the scientific study of the right and orderly way of doing things. Good safety work makes even the humblest worker in any plant a safety-man. The safety movement has proven to be one of the great agencies toward a realization of the Brotherhood of Man.
Operator Fred Sweep acted as relief agent during Mr. Dalrymple's absence.

Mrs. W. O. Long, wife of night wire chief, recently enjoyed a visit from her mother from Carruthersville.

Mrs. William Blair, wife of line chief, recently enjoyed a visit from her mother from Carruthersville.

Mrs. W. O. Long, wife of night wire chief, recently enjoyed a visit from her mother from Carruthersville.

Mrs. Dorothea Paige, evening operator at Kansas City, has resigned since her marriage on March 10, to Mr. Gordon Jones of the Burlington. Congratulations are extended.

P. L. Marksbury, messenger, spent Sunday, March 4, in Kansas City, and reports having had a wonderful time.

Since Mr. Fellows called on us last month we are feeling the call of spring and flowers. Mrs. Edith Austin, chief operator, is beautifying our office with dotted dill plants. While "Pat" Parks says they are to have a rose garden.

WOODALL'S GANG—TURRELL, ARKANSAS

E. L. Bray, Reporter

This gang has changed location again, having moved from Van Buren, Arkansas, to Turrell, Arkansas, February 17. Our new location is just 21 miles from Memphis.

Mr. Bert Sawyer has been pretty liberal with his visits lately, having visited us on February 23 and 24, and again March 1. Sawyer, M. B. Blane, division supervisor, and Mr. P. H. Daugherty, chief inspector, and Bert Sawyer of the Western Union, were with us in March.

Mr. Bert Sawyer has been pretty liberal with his visits lately, having visited us on February 23 and 24, and again March 1. Sawyer, M. B. Blane, division supervisor, and Mr. P. H. Daugherty, chief inspector, and Bert Sawyer of the Western Union, were with us in March.

We are very sorry to have to report an accident from this gang, but such has happened, and all we can do is to try to prevent accidents in the future. George Denney was injured February 28. The reports are that George is getting along finely and will lie with us.

Lynn McKinney, lineman, was transferred to Foreman Donahue's gang March 1, and McKinney has been filling a vacancy in this gang while R. C. Yancey is relieving Ernest Wolf division lineman at Talladega, Alabama. We are so the work list.

Bert Sawyer, division supervisor, visited us on March 1, and we are sorry to have to report an accident from this gang. Bert Sawyer was injured February 28. The reports are that Bert is getting along nicely and will be with us soon.

P. W. Mead, lineman, relieved W. E. Cave, division lineman at Memphis, a few days the first of March.

Ross Ranchor, assistant foreman, spent a few days at home the first of March. A. R. Speegle, lineman, handled the duties of assistant foreman while Mr. Ranchor was away.

We received our new sleeping car...
The Problem of Embrittlement

Embrittlement of boiler metal may follow as a result of the effect of the natural water, or it may be caused by the use of compounds carrying certain chemicals which reduce embrittlement in a dangerous degree, whether used as so called “external” or “internal” treatment.

Dearborn Treatment does not induce embrittlement; and when in our laboratory analysis, the water shows the characteristics of an embrittling water, provision is made in the prescribed treatment to correct this tendency.

This is another reason for using Dearborn Treatment regularly in the quantities directed, and in staying with it year in and year out, prevention of scale, corrosion and foaming being only part of the function of water treatment. The Dearborn Treating plants are a splendid prevention of scale, corrosion and foaming being only part of the function of water treatment. The Dearborn Treating plants are a splendid prevention of scale, corrosion and foaming being only part of the function of water treatment. The Dearborn Treating plants are a splendid proof of the fact that treatment is in use.

Locomotive boilers where Dearborn is used have to be present without troubles and none developing.

Wallace Wilson, superintendent, was called to Ada, Okla., March 2, an account of sickness of his wife, the undersigned, operation, and appendectomy, Sunday, March 4. We expect her to be well by tomorrow morning.

This gang is working three miles per week and has traveled more miles this month than 'any gang in the department.

We have been having quite a chicken temperature here lately, but having been careful to have the proper treatment in the water, there have been no cases developing.

We are all glad to see the railroad again, which has a great benefit on the A. S. L. Department and the company, as it is now possible to have our men and women working by the ordinary track, and the company again handling the traffic.
