The restoring of trains 505 and 512 on September 9 between Tulsa and Ada, Oklahoma, was welcomed by all. This has always been a popular train to the oil fields around Seminole and will mean a nice addition to our local ticket sales. Train 118 was also put on again to Afton, Okla., making a connection to Joplin. We always welcome additional trains as it seems to help other trains too, if a passenger

knows he has several chances to go and come from a certain point he is more apt to make the trip by rail.

They also spent a couple of days at the old home in Ft. Wayne, Ind.
